## **AlumierMD Retinol Eye Gel 0.1%**

### **BENEFITS**

- Dramatically reduces the appearance of fine lines and crow's feet.
- Increases firmness and elasticity.
- Contains an encapsulated gentle slow release high potency retinol.
- Effectively hydrates delicate skin around eyes.
- Contains nourishing antioxidant vitamins C and E for free radical protection.
- Fragrance-free, sulfate-free, paraben-free, mineral oil-free, dye-free

## **AlumierMD Retinol Eye Gel 0.1%**

With ring finger, gently pat under the eyes, along the brow bone and over crow's feet, being careful not to rub or stretch the delicate skin. Apply sparingly to eyelids if required. Use in the evening only. Start off with one application once or twice a week and gradually increase to once daily after 2 to 4 weeks. It can take 6 to 12 months to notice an improvement in skin tone and texture.

**Caution:** Do not use if you are pregnant, lactating or planning to become pregnant. Mild redness, peeling and irritation may occur when using this product. Use AlumierMD moisturizing sunscreen during the day and limit sun exposure while using the product and for a week following discontinuation. For external use only. Avoid contact with eyes and mucous membranes. Keep out of reach of children.
